Response

Predict behavior of new drug

Molecule

Response

Open Source Malaria contest

OPEN SOURCE MALARIA

Looking for New Medicines

Predictions have an uncertainty

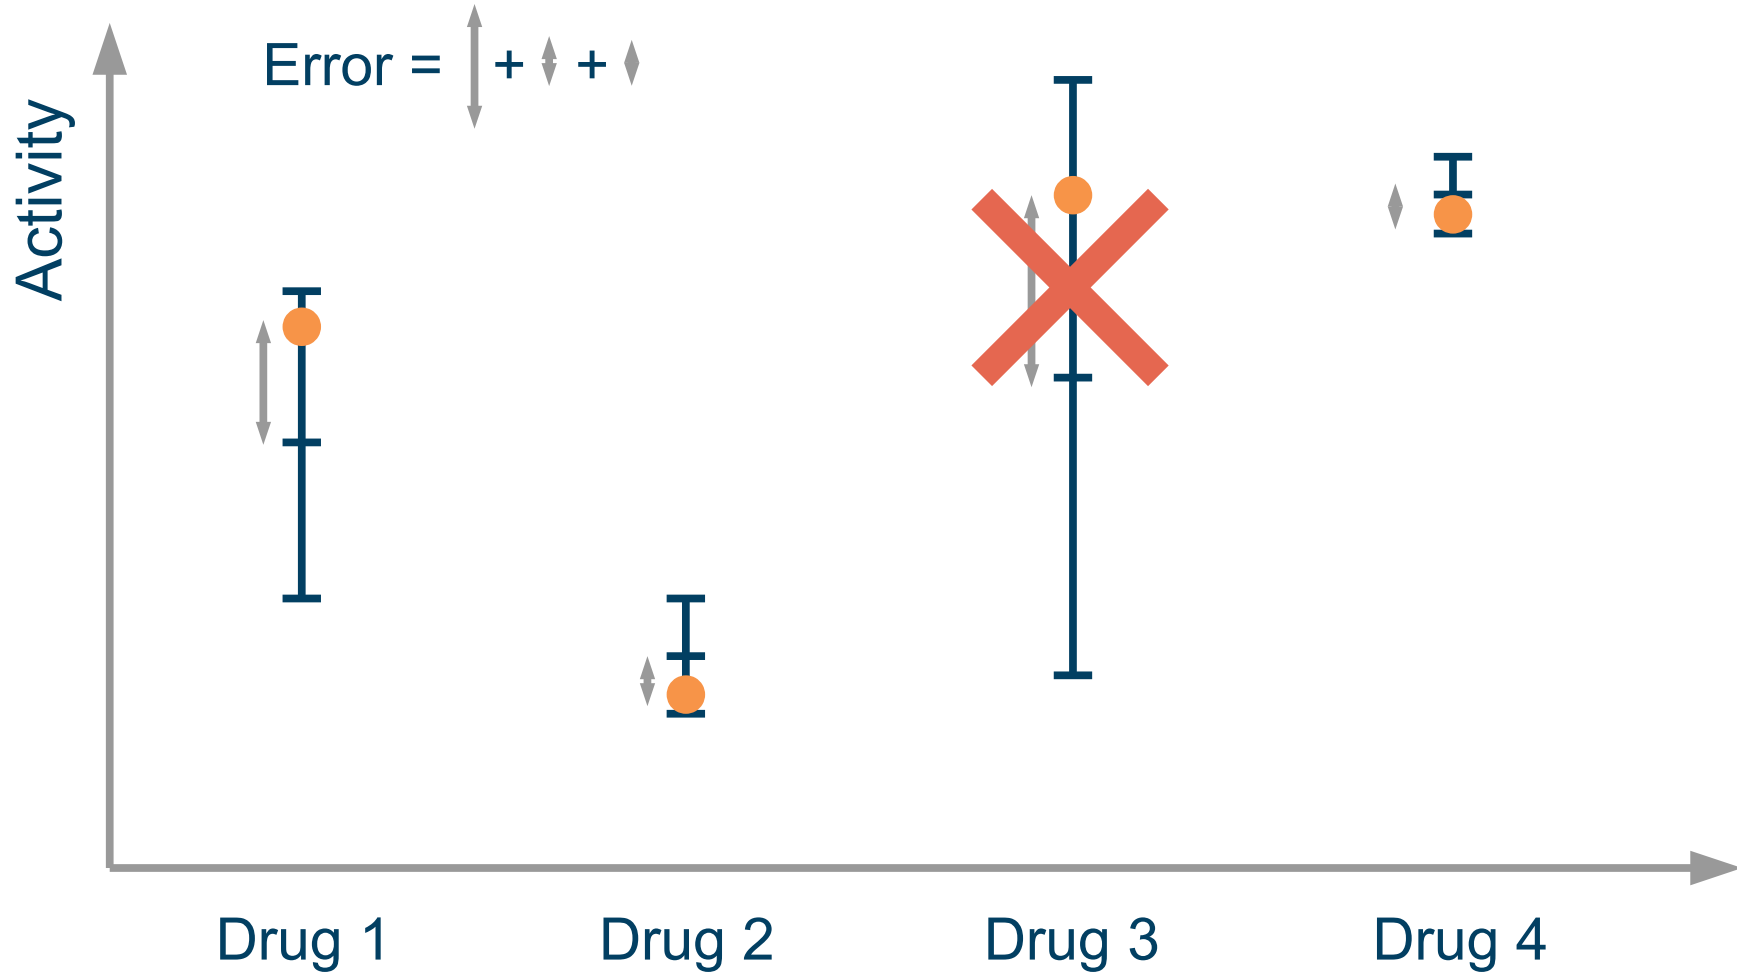

Validation data typically within one standard deviation

R^2 metric calculated with difference from mean

Impute 75% of data with smallest uncertainty

Impute 50% of data with smallest uncertainty

Impute 25% of data with smallest uncertainty

Improved performance by exploiting uncertainty

Improved performance by exploiting uncertainty

Different drugs can treat the same ailment

Focus on compounds with low uncertainty
